PREPARED FOR

Jordan A. Hardison · CEO, JAH AUDIO, CORP.

CONFIDENTIAL BRIEF

jahavl.com · P17000011640

NOT A DISCOVERY CALL — A WORKING PRODUCT REVIEW

A selling OS for JAH.

So the AV business runs as cleanly as your Sunday stack.

LED walls · stage lighting · live sound · worship + venues + touring

Anchored to JAH AUDIO, CORP. (jahavl.com) – not Jerry Harvey / JH Audio.

WEB	API	LIVE	MOBILE	ROLES
Next.js	Laravel	SSE	Expo	4 portals

ALREADY BUILT — EVIDENCE FIRST

Web + mobile commerce stack, mapped to how JAH sells.

We rebuilt a production-ready catalog, multi-role quoting, and channel portals around your series lines (J / JE / JW / JHD · Versa · JLA / JLS / JDA) – client, dealer, sales, and admin – with live operational updates. This is not a mockup deck. It is a staging walkthrough.

- *Live updates layer*
- *Public catalog*
- *Role-aware quotes*
- *Dealer / client / sales / admin*
- *Expo mobile companion*
- *Tickets · messages · alerts*

WE ARE

- **Partner for JAH commerce & channel software**
- **Technically fluent – Next.js, API, Expo, live**
- **Focused on LED / lighting / sound selling ops**
- **Ready with a 30-min staging walkthrough**

WE ARE NOT

- **A replacement for AIO.Church / R.ai / AIO Assist**
- **A generic "AI for churches" pitch**
- **Confusing you with JH Audio (Jerry Harvey)**
- **Asking for a long discovery marathon**

WHY THIS RESPECTS YOUR BAR

You build AI operating systems for churches and ship with agent discipline. We speak that language – reliability, roles, auditability – applied to JAH's selling surface. Your AIO lane stays yours. Our ask is capacity on JAH digital ops so catalog, quotes, and dealers match the product quality behind them.

Next step: 30-minute product review

Staging URL · mobile companion · go-live cut (dealer net · PDF · payments · cutover)
